Dear Mr. King:

Re: Approval of PAP Amendment, Request for Permanent Loadout Facility, Genwal Coal Company, Crandall Canyon, Mine, ACT/015/032-88A, Folder #3, Emery County, Utah

The Division and other appropriate agencies have reviewed Genwal Coal Company's request for the permanent loadout facility for the Crandall Canyon Mine. This will serve as final approval for the development of the loadout facility plan proposed in the five-year permit renewal package, received February 16, and 23, 1988. However, the facility may not be operated until an approval order has been issued by the Bureau of Air Quality.

Please contact James Leatherwood, Reclamation Soils Specialist, or myself, should you have any questions or concerns regarding this approval. Thank you for your cooperation in completing this permitting action.

Sincerely,

Susan C. Linner
Permit Supervisor/
Reclamation Biologist
